The Liberty Street BIA and the City of Toronto are working jointly on a project to revitalize the public space in front of the properties at Zoomerplex and 147 Liberty Street. This project has been a long-standing goal of the Liberty Street BIA and is supported by Economic Development & Culture. Designs for two parkettes are underway and we wish to introduce you to the project and get your feedback.

This is a drop-in event in gallery format with an opportunity for comments, Q&A, and a general discussion with representatives.
