Important information and safety tips on the reverse side.

## PROJECT STAGES

1

### Design

The *design* stage is when technical staff plan on how to get the new power supply to your home or business.

2

### Civil

The *civil* stage is when crews dig into the ground and place new poles and underground conduits.

3

### Electrical

The *electrical* stage is when crews switch over the supply from the old to the new system.

### Planned Power Interruptions

- Throughout this project, planned power outages may be necessary when switching from the old to the new electrical system. We will always provide you with advance notice of these outages.

## WORK DETAILS

### What to expect

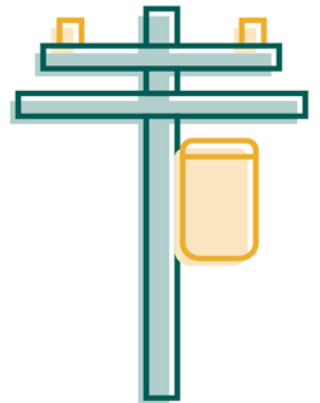

- While Toronto Hydro will make every effort to reduce the impact of construction on your community, you may experience dust, noise and other inconveniences as a result of the work on this project. We appreciate your patience as we work to improve the reliability of service in your neighbourhood.

### Work hours

- The work on this project will generally take place Monday to Friday, between 7 a.m. and 7 p.m. However, some weekend work may occur.

### Road and sidewalk access

- In order to complete work in a safe manner, there may be road and sidewalk restrictions within the construction work area. In the event of any parking restrictions in your community, advance notice will be provided.

## SAFETY TIPS

### Public safety is our top priority and everyone plays an important role:

- Never enter a construction area marked by fences or safety cones
- Be visible at all times and make eye contact with people operating equipment
- Be aware of your surroundings and avoid distractions
- Follow all safety signage, even if there are no construction workers around
- Walk on the sidewalk or designated walkway
- Ask for assistance to walk around the construction area if preferred
- Watch your step! Always be prepared for unexpected hazards
- Report anything that looks dangerous to a construction site worker, or call 416-542-8000
